Empower Your Soul - to Inspire

Possibility

"Make a game of finding something positive in every situation. Ninety-five percent of your emotions are determined by how you interpret events to yourself."— Brian Tracy

Honesty

"Deal honestly and objectively with yourself; intellectual honesty and personal courage are the hallmarks of great character."

Excellence

"People create their own success by learning what they need to learn and then by practicing it until they become proficient at it."

Words of Wisdom

FALSEHOOD DOES EVERMORE HAVE A WAY OF PUBLISHING ITSELF.

It is virtually impossible to conceal the truth forever. It is the natural order of things that the truth will eventually come out. This single fact is the foundation of our judicial system and the basis on which all human relationships are formed. A business, professional, or personal relationship built upon a lie cannot endure long, but one that is founded on truth and equality of benefit for the participants is unlimited.

Make it a practice to tell the truth in all that you do-even when it doesn't matter-and you will form a habit of truthfulness. You will know instinctively that it is better to tell the truth and face the consequences than to launch a falsehood that will eventually make itself known to the world.
